

To Celebrate We The Curious's 25th anniversary,
We invite you to reflect on the past with us.

Follow the trails to open your senses and reconnect to the city.
Use the prompts to question and reflect by drawing
or writing in this book!

Keep an eye out for:

This zine is inspired by the We The Curious archives and your imagination
Take it with you, share your thoughts and ideas, keep playing.

Look Up, Look Down

Find 3 things above your head and 3 things below your feet that you've
never noticed before.

Pretend you are the first person ever to discover it.

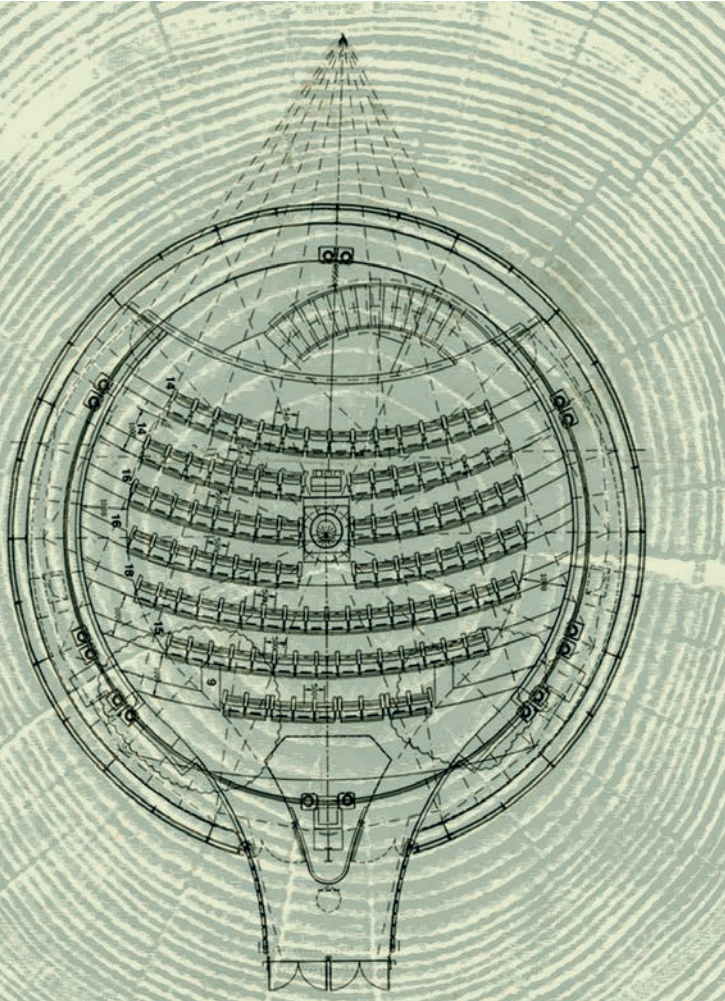

What would you name it?

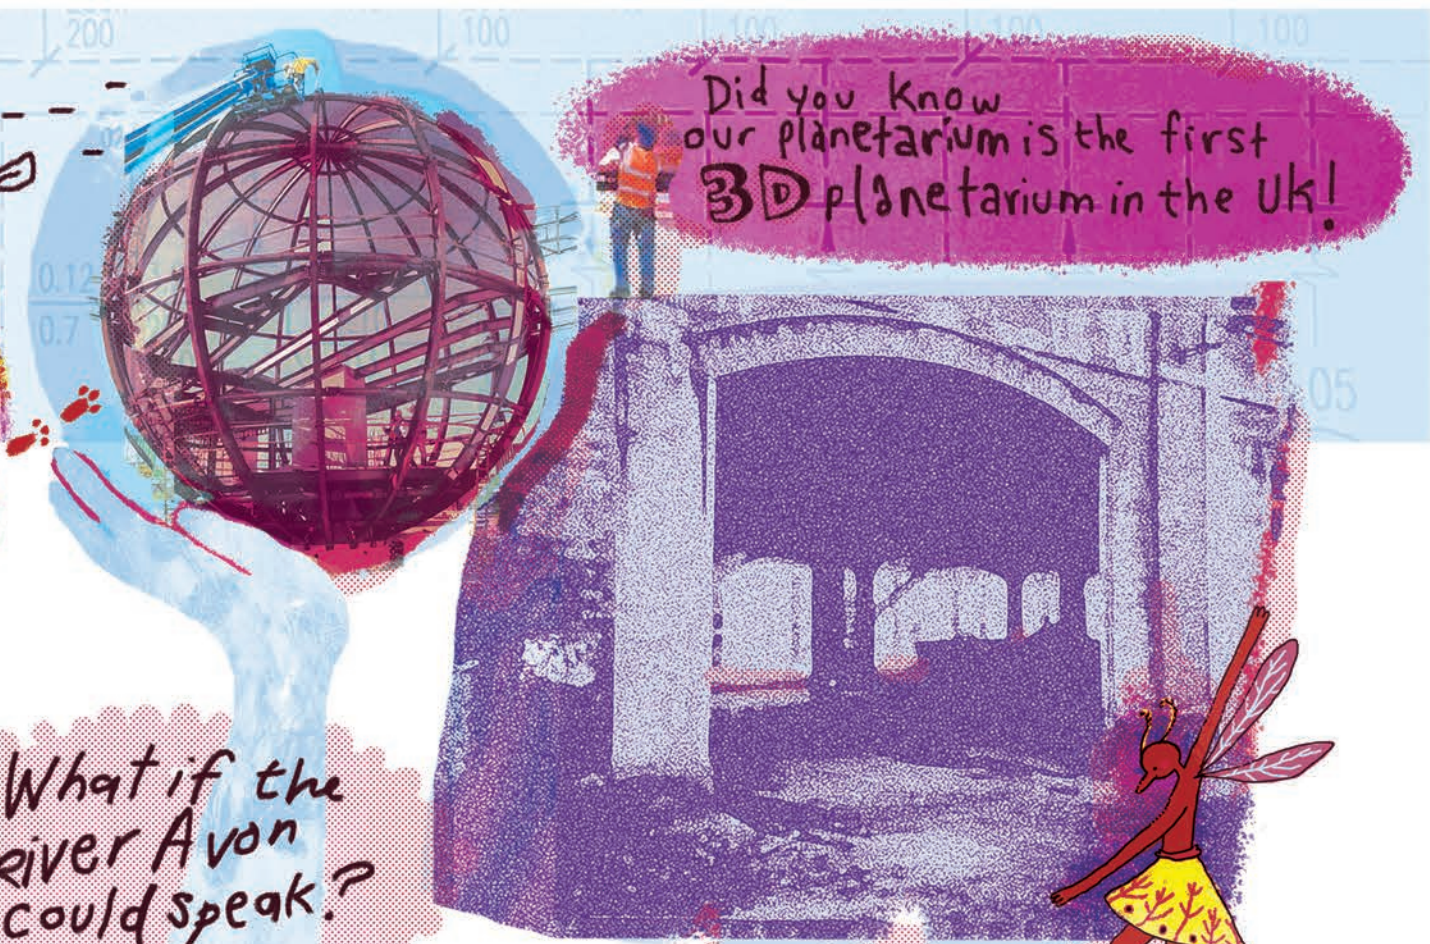

If you could design a sculpture for Millennium Square
what would it look like?

Combine one object found in the city (like a lamppost, double decker
bus or bike) with something from nature (a bird, tree, or mushroom).
Where does it live, what does it eat, do they have a superpower?

Do they leave behind a trail, of footprints or something else?

Did you know
our planetarium is the first
3D planetarium in the UK!

What if the
River Avon
could speak?

We The Curious
under construction

What if
plants took
over the city?

Sketch or write about how Bristol
might transform if trees grew
inside buses or vines wrapped
around streets...
